PROFILE

Innovative Web, UX, and UI Developer with a strong foundation in both front-end and back-end development. Passionate about creating engaging, user-focused digital experiences that prioritise performance, accessibility, usability, and responsive design. Proficient in CMS platforms, plugin development, mobile application development, **Java, React, Vue.js, JavaScript, C#, PHP, SQL, HTML, and CSS**, with strong expertise in database design and **UX/UI best practices**. Skilled at translating complex user and business requirements into intuitive, responsive, scalable, and visually appealing digital solutions. Committed to delivering high-quality websites, plugins, web applications, and mobile apps that enhance user engagement and support measurable business growth.

PROFESSIONAL EXPERIENCE

- **PRO.COMP Solutions (Self-Employed)** 2015 - PRESENT
Freelance Web, Plugin, Mobile App & UX/UI Developer
 - Develop responsive, high-performance websites, custom plugins, web applications, and mobile apps using modern front-end and back-end technologies, ensuring seamless functionality across devices and platforms.
 - Integrate APIs, databases, third-party services, and custom features to create scalable, secure, and content-driven digital solutions tailored to client requirements.
 - Design and develop custom CMS and WordPress plugins that extend website functionality, automate processes, and improve user and administrator experiences.
 - Build intuitive and responsive mobile applications with a strong focus on usability, accessibility, performance, and consistent UX/UI design.
 - Optimise website and application performance, accessibility, security, and SEO to deliver fast, reliable, and user-friendly digital experiences.
 - Collaborate with clients and designers to transform ideas, business requirements, and design concepts into fully functional, visually engaging, and scalable digital products.
- **Mediafields LTD** 2022 - Mar 2026
IT Technician & Web Developer
 - Designed and developed modern, visually engaging company websites with a focus on usability and responsiveness.
 - Developed custom WordPress themes and plugins, enhancing functionality and user engagement.
